Good morning Don:

I copied Maria on this email as she did the completed the attorney call on 3/1. He was added to my 3/7 at 10:15 calendar and I couldn't figure out why as I saw Maria had called him and marked as complete. I asked her if there was any reason she knew of as to why and she didn't know why. It was marked in Sharpen as a "positive consult". There is a note on IB CALL on March 4 that "ATT CALL set up" but no reason as to why.

When I called him this morning he didn't answer and I left him a VM. He called me back and when I introduced myself I asked him did he talk with maria on 3/1 and he said yes. I inquired did he have more questions to ask me as an attorney and he said he was just wanting to find out the status of his settlements and that he might need to stop the next payment which isn't until April 2.

I put in a detailed NOTE today but what should I do with him? Create a CASE? And is there a way for them to explain why a person is back on the calendar so we know what we are dealing with ahead of time?

Thanks,

Tim
